CONFERENCE SPEAKERS

Stephanie Burton

Having been a teacher for 31 years, Stephanie Burton, M.A. is also an award-winning author, singer and songwriter and an early childhood consultant. Stephanie's keynotes and teacher workshops are energetic, fun, and full of practical, easy-to-implement, classroom-tested ideas. In addition to dynamic keynotes, she can present full-day or half-day sessions, or you can combine a teacher workshop with classroom visits and/or an assembly for a really memorable day.

Her book and CD, *Music Explosion*, received the 1994 *Early Childhood News Award*. *Science Times with Nursery Rhymes* (co-written with Phyllis Campbell) received the 2002 *Learning Magazine's Teachers' Choice Award*. *The Curiosity Shop* (co-written with Phyllis Campbell) received the 2003 *Learning Magazine's Teachers' Choice Award*. These and her other book with a music CD, *Music Mania*, are extremely popular with early childhood teachers across the country. Stephanie and Phyllis' book/CD set, *Math Magic*, received the 2003 *Early Childhood News Director's Choice Award*. Her CD, *The WiggleWorm Workout*, is a favorite with teachers everywhere for getting children to move, learn and focus better. ..It's the only movement CD you'll ever need! The *Wiggle, Giggle and Learn* CD is full of great songs for learning the ABCs, colors, discovering opposites, rhyming and just having fun.

Phyllis Campbell

Phyllis Campbell is a teacher and author with over 25 years of classroom experience. Phyllis has co-authored with Stephanie Burton *Science Times with Nursery Rhymes* (2002 *Teacher's Choice Award Winner*) and *The Curiosity Shop*, a 2003 *Learning Magazine Teachers' Choice Award Winner*. She and Stephanie Burton's latest collaboration is the Book/CD, *Math Magic*.

Phyllis brings humor and practical teaching methods to all workshops. Her hands-on teaching style helps teachers gain insight into practical planning and implementation of a strong early childhood curriculum.

CONFERENCE KEYNOTE AND WORKSHOPS

KEYNOTE SPEAKER: Stephanie Burton

"I'm Me, I'm Special: Nurturing Learning at Circle Time and Beyond"

Explore the wonderful world of early childhood where children learn and grow while developing positive self-esteem and the confidence to explore the world around them. This lively, interactive session will give you lots of fun large group and small group activities that promote positive relationships between children and instill a love for learning while developing essential skills in literacy, math and science. **1 ½ hours Social Emotional**

WORKSHOP SPEAKER: Phyllis Campbell

"Science Times with Nursery Rhymes"

The rhythms of nursery rhymes provide a natural introduction to science for young children. Hands-on experiments using materials easily found at home, along with familiar nursery rhymes combine to teach basic science concepts. Let Jack and Jill, Humpty Dumpty and Three Men in a Tub help students expand their thinking and problem solving skills. Learn how to use the science table, journals and art in creative ways to build a phenomenal science program. Science will truly come alive in the classroom. **1 ½ hours Child Growth & Development or Developmentally Appropriate Practices**

WORKSHOP SPEAKER: Stephanie Burton

"Making Math Magic for Young Learners"

Learning about math has never been more fun! Start with a song at group time, then follow it with large group math activities, movement math, learning center math activities, take home math activities and more. Teachers and students will love the fun innovative ideas using easy to find materials. Teaching math concepts will never be easier! **1 ½ hours Child Growth & Development or Developmentally Appropriate Practices**

WORKSHOP SPEAKER: Phyllis Campbell

"Classroom Science for Non Science Teachers"

Scared of science? Don't be! Science comes alive using children's natural curiosity combined with their love of music and rhyme. You and your students will laugh, dance and sing as you explore the wonders of everyday science with developmentally appropriate science experiences using easy-to-find materials. Learn how to use the science table, journals and art in creative ways to build a phenomenal science program. **1 ½ hours Child Growth & Development or Developmentally Appropriate Practices**
